Pension Freedom

In April 2015 The Government introduced the most radical changes to pensions in almost a century, Ten provides consultancy and guidance for clients that will be effected by these changes.

Protection Insurance

Without protection you run the risk of leaving your loved ones struggling to cope financially if you die, become ill or lose your livelihood. It's that simple – it's about using insurance to protect yourself, your partner and your family against those 'what if situations'.

Pension Review

Choosing a pension that is right for you can be a daunting task, at Ten one of our experienced Independent Financial Advisers can assess your individual circumstances and provide advice that is tailored specifically for you.

Asset Re-Allocation

ARA is a unique investment product Ten offer which involves the purchase of a range of carefully selected company shares prior to stock market listing. To date ARA has been extremely successful with clients seeing excellent returns on investment.

Pension Overview Workshops

Ten organise group workshops for companies or unions wishing to inform their employees of the changes to the pension law and how defined benefit or final salary pensions are affected.

Work Place Pensions

Workplace pensions are the latest initiative where employers contribute to a pension as long as the individual matches the contributions. Ten can assist small to medium size employers implement this system into their business.

Income Protection Insurance

IPI is an insurance policy paying benefits to policyholders who are incapacitated and hence unable to work due to illness or accident. Benefits are payable when the policyholder becomes incapacitated and after the deferred period has passed and continue until the earliest of death, recovery of health, retirement or the term of the contract

Business Start Up Assistance

For clients new to the business environment Ten can assist with a range of start up packages offering company formation, accountancy software, corporate identity, website design, hosting, social media support and business growth expertise.
